

## Parish organist – pianist

Christ Church, St Kilda, an historic parish founded in 1854 under the influence of the world-wide Tractarian Movement, is seeking to appoint a well-qualified and experienced organist who is also a pianist.

The person appointed should have a appreciation of liturgical worship and an understanding of the significant part music plays in the life of a parish and its mission. The person would need to be prepared to work with the Vicar to explore possibilities.

The Parish has a fine 1859 Hill & Son pipe organ recently restored, and a Bluthner mini-grand piano. The organist-pianist would initially be required to play at the Sunday morning Parish Eucharist, although this may augment as the Parish's mission outreach develops. The organist-pianist would need to be available to play at liturgies appropriate to Christmas, Easter and other special occasions, as well as at weddings and funerals.
